Astrana Health named amongst Time's 'Most Impactful Companies of 2026'

We are proud to share that we have been recognized in Time's inaugural list of the "World's Most Impactful Companies of 2026." Partnering with Statista, Time launched the list which highlights 500 companies that address high-priority global challenges as part of their core business, demonstrating that strong

business performance and meaningful societal impact can go hand in hand. Today, Astrana supports more than 20,000 providers in caring for over 1.5 million patients nationwide, and we want to thank YOU, our broker partners, for the part you play in making this milestone possible!

PROVIDER HIGHLIGHT

RIVERSIDE COUNTY

Sarah Chae, M.D.

My career has been a true blessing for me. For most of it, I have had the autonomy to practice the type of medicine that led me to this field in the first place. Since 2006, I have lived and practiced here in Riverside. Being a part of the community in which most of my patients live has allowed me to understand the challenges that my patients and neighbors face. In addition to working full-time in primary care, I am also active in training the future physicians in our community by volunteering at the UCR School of Medicine and as a faculty member at the Riverside Community Hospital residency program. In my free time, I enjoy cooking (I have over 1000 cookbooks), reading, and playing classical piano.
